

# Video Content Creator (Motion & Storytelling)

## Infinity Unconventional Education

Rome, Latium, Italy (On-site)

### Video Content Creator (Motion & Storytelling)

Infinity is looking for a Video Content Creator to join our close-knit creative team.

We're searching for someone who lives and breathes video storytelling, who can work confidently across shooting, editing, and motion graphics.

This role is ideal for someone who loves turning ideas, footage, and graphic elements into short-form videos, mini-interviews, inspirational content, animated pieces, and social-first formats (TikTok, digital platforms, branded content).

#### What you'll do

- Create video content from concept to final delivery, working across shooting, editing, and motion design
- Produce and edit short-form videos, including mini-interviews, social content, inspirational videos, and digital formats
- Build visual narratives using a mix of original footage, stock footage, and animated graphics
- Design and animate motion graphics to enhance storytelling, pacing, tone, and clarity
- Develop videos that blend graphic post-production and live footage, as well as fully animated graphic videos
- Collaborate closely with creative and project teams to align on storytelling, tone of voice, and content goals
- Take ownership of timelines, quality, and deliverables, maintaining high creative standards
- Stay up to date with trends in video formats, motion design, social platforms, and digital storytelling

#### What we're looking for

- Proven experience as a Video Content Creator, Video Maker, or similar role
- Strong skills in editing and motion design, with a clear ability to create engaging visual storytelling
- A portfolio that shows:
  - Short-form and social video content
  - Motion graphics and animations
  - Videos built from both footage and graphic elements
- Solid understanding of shooting basics (camera, lighting, audio), even if your strength is post-production
- Sensitivity to rhythm, narrative flow, and contemporary visual language
- Curiosity, flexibility, and a collaborative mindset across different formats, projects, and clients

### **Why Infinity**

If you're passionate about video as a storytelling medium, enjoy experimenting with formats, motion, and visuals, and want to work in a creative environment where ideas evolve into meaningful content, we'd love to meet you.

### **Apply Now**

Ready to design creative work that matters?
